To the auDA Industry Advisory Panel,

Re: Response to 2012 Industry Advisory Panel Draft Recommendations

APTLD (Asia Pacific Top Level Domain Association) would like to thank you for the opportunity to respond to the 2012 Industry Advisory Panel Draft Recommendations (September 2012).

Our comments relate directly to Issue 1. The method of 2LD registry operator selection/appointment post-2014

APTLD would like to acknowledge the positive industry contributions made by AusRegistry and for their continued support and participation over our many years of association. The excellent standard of service and the international reputation AusRegistry has earned is testament to the hard work and dedication contributed towards delivering Registry services for Australia's .au domain name space.

We therefore send this letter in support of Draft Recommendation 1A, that being for auDA to initiate renegotiations with AusRegistry to extend contractual arrangements.

Best regards,
